## Itching,

Is the external indication of a condition of the blood which produces a fiery irritation almost unbearable. It is a mistake to think that this local irritaevidence of a disordered condition of the blood. The seat of the disease is in the blood, and this is why the various salves and ointments usually applied have no effect whatever. They cannot possibly reach the origin of the trouble; only a blood remedy can do that. S. S. S. is without an equal for blood diseases, and promptly and permanently cures Eczema nd removes all taint. Much torture could be avoided if the

first itching symptoms were heeded and a course of S.S.S. taken promptly: as apparently insignificant skin irritations usually develop into the worst form of Eczema unless properly treated.

It matters not what other treatment

has been tried in vain, S. S. S. always gets at the seat of the disease, and Mr. William Armstrong, avold rest-

dent and highly respected citizen De Pere, Wis., writes on April 1st, 1896.

MR. WILLIAM ARMSTONG.

"I have been a sufferer for eight years with that horrible disease, Eczema, at times all over my body, and no person can describe the burning and itching I had to endure.

"The extent of my sufferings can be appreciated when I state that my condition was such that I could not take my bed, and for three months I never laid down, but was compelled to sit in my chair when not moving around. I is treated by the best of physicians with no success, and tried all the patent medicines recommended for Eczema, without any good results. I then went to the Indiana Mud baths, with the same results, and then to Mt. Clements, the celebrated medical resort, where the treatment partially helped me, but the disease shortly returned. I went to Florida, thinking that a change of climate and water and the citron fruit might cure me, but found no cure.

"I then tried S.S.S. and after three lava the burning and itching subsided, and I continued to improve steadily until I was well-entirely cured. After commencing S. S. S. I never put an external application to my limbs or any part of my body. You may refer to me any person suffering from Eczema. I will lways keep the S. S. S. in my house, for I consider it the best blood medicine of the present age. I am seventy years of age and am now in perfect health."

For real blood diseases relief can only be obtained by using a real blood remedy. So many people who are sufferers from an obstinate or deep-seated blood disease make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. It is in just such cases which other so-called blood remedies cannot reach that S.S.S. has made some of the most wonderful

Washington, June 26.—The alarm at Key West, Fla., over the threatened the files were found in the sole of his race war which it was feared would be has an equity, but they admit that it slippers, securely imbeded. A plot had precipitated if the purpose of a mob of has been paid in a general way in the n hatched on the pant of Worden whites to lynch a negro charged with and other prisoners confined alongside rape was carried out, apparently has subsided. Delayed information received by the secretary of war from the officer in command of the United States troops stationed at Key West is to the effect that there were hreats of lynching but no attempt to carry it out. The negro is stated to be protected by the sheriff and is safe. There was some drunken pistol firing Thursday night and one white man was shot. The local authorities, it is said, took no steps to preserve order. Notwithstanding these facts the town was perfectly quiet last night. The officials here are of the opinion that the danger, if any existed, has passed over and no further trouble is anticipated.

Key West, Fla., June 26.-The excitement which prevailed here yesterday has somewhat abated and there is little danger of the antic:pated race war. There was no organized disturbance during the night, owing probably to the drastic measures taken by the sheriff, who promptly shot down a negro in time to thoroughly awe a gang of colored men which seemed inclined to make trouble. The negro was wounded, but, it is said, not fatally. The military are keeping close guard on the jail where Johnson is confined and it seems hardly probable that the will be any necessity for the United States troops. Johnson is the negro accused of assaulting Mrs. Atwell and the whole trouble arose out of threats made by white men that they would lynch John-

PRESIDENT CLARK OF THE UNION PACIFIC IS DISGUETED.

Railroads Reports Enfavorably to the Late Administration's Plan of Surrend Praises the Generosity of the Roads in Bare- Obstruction Almost Crimical.

St. Louis, June 26,-8. H. H. Clark, resident and one of the receivers of the Union Pacific railway, who is convalescing from a serious illness at his residence here, was interviewed today on affairs pertaining to the road under his control. He had read the Associate Press dispatch giving particulars of the action of the senate committete on rail-roads in Washington, with reference to the Union Pacific, and said, regarding shooting. Ill health was the cause. the resolution of Senator Harris of Kansas, which was reported favorably;

"I can only see in this the usual fied the sheriff that an sitempt would be structive measure to any reasonable and sensible business-like plan of settling the differences between the government and the Pacific roads.

> "There will never be a better plan of settling up the Pacific railway difference with the government than that suggested in the plan of reorganization, now before congress. It is just, it is equitable, and what is of greater consequence, it would be a settlement that would settle. The country is tired of the controversy. The people realize that the government has been paid, in a general way, in the form of benefits, ten times the amount of the equity.

"It will be a deplorable thing if the senate's action shal disturb the plan of reorganization and foreclosure instituted during the Cleveland administration. That was the most equitable, the most sensible and, I may say, the most generous proposition that was ever offered the government for a settlement of the Pacific railway problem, and it ought to be gladly accepted by the government's representatives. To obstruct it now, by captious resolutions of senate commit tees and other measures which offer nothing better, is little less than criminal."

Mr. Olark says he is in much better health the past few weeks and he hopes to be able to leave the city about July

## BANNERMAN IS BEATEN In His Suit Against the Winchester Arms Company.

New Haven, Conn., June 26.-Judge Hoyt H. Wheeler, of the United States circuit court of the Southern district of New York, has handed down a decision in favor of the defendants in the famous suit of Bannerman vs. The Winchester Repeating Arms company, of this city. In the neighborhood of 100,000 persons were directly interested in the result of this suit, as they were liable for damage for infringements if the plaintiff won the suit. The suit was brought in October, 1894, by Francis Bannerman of Brooklyn, N. Y., against the Winchester Repeating Arms company to engin them from making the Winchester model 90 rifle and the Winchester repeating shotgun, model 93, alleging that the supporting forearm action hese guns are manipulated was an infringement upon patents owned by him. Rannerman claimed \$10,000 damages and a royalty upon all the guns of this model which the Winchester had made up to the time the suit was brought, Judge Wheeler decided that the Winchester guns do not infringe upon the patents of Bannerman and ismitsed his bill for damages and an accounting.
